PRIVACY BOOTHS

SUNLINE SERENITY PRIVACY BOOTH

Privacy Booths provide you with a private and comfortable place to do your creative work.

Our booth structure consists of a supporting frame made from aerospace-grade aluminum panels, carbon composite panels, and double-glazed glasses - which are often used in high-speed rail trains. In order to simplify the assembly process, we only use one type of fastener.

The air in the booth is fully circulated every three minutes, equipped with 4000K natural color lighting, 12V-USB power supply, and power rated for 110-220V/50Hz.

SUNLINE SERENITY PRIVACY BOOTH FEATURES

MAIN MATERIAL

Tempered glass (same quality standard as Metro sliding door tempered glass). Aviation Aluminum frame, strong carbon composite wall panels, floor damping carpet. Wood-free, glue-free, screw-free.

INTERIOR MATERIAL

Using 60% high density PET acoustic panel as sound absorption materials inside the booth, making the sound clearer.

EASY INSTALLATION

It can be assembled & disassembled within two hours; no screws needed to install the booth structure.

VOLTAGE

110-220V/50Hz and 12V-USB power supply system.

VENTILATION SYSTEM

1~3pcs silent fan --refresh the air every three minutes.

OFFICE REVOLUTION

Modern open-plan offices are a current popular trend, offering cost-effectiveness while providing a space that will promote teamwork among employees. Our booth can provide the privacy that is also needed at times from a traditional office or small conference room. Thus, the best of both worlds for the office.
