

Fuch's Lubricants

Case Study

The Project

Fuch's Lubricants (Winter 2024) :

Fuch's Lubricants approached Arnold's Office Furniture with the goal of giving their office a much-needed facelift.

The project stemmed from the need to upgrade their office environment to create a more modern, functional, and visually appealing workspace for the team. Our competitive pricing and expert design services made Fuch's decision to move forward with Arnold's easy.

The project involved outfitting a single office location, with a planned timeline spanning several months. To maintain workflow and minimize disruption, the installation was executed in two back-to-back phases. Fuch's Lubricants received one Sunline Synergy 800 series glass wall, 22 Sunline Signature workstations, chairs, and an office desk!

About Our Client:

FUCHS is a global Group with German roots that has developed, produced and sold lubricants and related specialties for 90 years – for virtually all areas of application and sectors. With 55 companies and more than 6,000 employees worldwide, the FUCHS Group is the leading independent supplier of lubricants.

The Solution

We worked closely with the client throughout the project, ensuring strong communication at every stage – from sales and project management to installation. Our team provided timely responses and comprehensive support, making the process as smooth as possible. Despite a measurement challenge, our design turnaround time was efficient, ensuring the client received design revisions quickly.

Our team delivered a functional and aesthetically pleasing office environment that met both the budget and design expectations. By addressing challenges promptly and maintaining open communication, we ensured the project stayed on track and the client was satisfied with the final results.
